PROJECT SELECTION PROCESS

CED#1 Crosstown Used Beam Request Program

1. The CED#1 Used Beam Request Form shall be completed and submitted to the CED for consideration. (One project per form.)

Projects using local money (CBRI, Sales Tax, etc) must meet ODOT "Force Account" standards.

Projects using CIRB funds must meet federal requirements and be let by ODOT.

2. The CED will prioritize the requests and will authorize the use of the beams based on several parameters:
 - a. Planned construction date of the project.
 - b. Availability of the size and length of beam requested.
 - c. The County's priority for the project.
 - d. The number of beams already allocated to the County.
3. Crosstown Beam Transfer Forms will be required 60 days prior to transfer of beams:
 - a. The Crosstown Beam Transfer form's first page will be filled out by the CED manager based on the project design.
 - b. The County will then acquire the District Attorney, County Clerk, and County Commissioners signatures and return the signed document to the CED manager.
 - c. The CED manager will acquire the signatures from OCCEDB and Local Government.
 - d. The County may then transport the beams.
4. In addition to these steps, other requirements must be met for this used beam program:
 - a. For all projects the beams must be placed into service within 3 months of the transfer date. If this is not adhered to, no additional beams will be transferred.
 - b. The CED manager will verify the installation of all beams for proper accountability. An accurate inventory and location of the beams is required by ODOT.
 - c. If funds are required please submit a Materials Request Form.
