**Subject:** New electronic process

All,

I apologize for the long email, but please read in its entirety as it outlines a new LPA process.

Robert Blackwell has tasked me with reducing the amount of paper that flows through the LPA branch and to that end I am implementing a new electronic project submission process. Some of these changes may or may not affect you as CED managers.

Files will be submitted from the engineering company to local government per whatever process you already have in place or you can send electronically if its easier.

Local government will then send to me electronically for processing. I will put a copy of the electronic files on the disk that is included on all new projects with the forms, etc.

The documents required for submission will not change. I will no longer be sending a copy of the plans and easements to the county. There will be a cover sheet included with the disk indicating that if the county needs a copies of these, they can get them from the CED or the engineering company. If they are using a service provider to secure ROW, it is the counties responsibility to make sure the provider has a set (this is usually done beforehand anyway so the provider can create their proposal).

One of the reasons for this process change is that in the past, easements have been coming back to me that are not the easements I reviewed and the county often already has copies of the plans and easements on hand. This is a waste of paper and postage.

Also, once the parcel files are reviewed, they are immediately returned to the service provider for return to the county. I am unable to hold onto reviewed files anymore. It is the county's responsibility to store these files for at least 3 years (3 years from the date of project clearance) in case of review.

Since this is a new process, there are bound to be glitches here and there that I'll work to solve immediately. If you have suggestions to improve the electronic process, I certainly welcome them. As I am handling all LPA projects for the state, I believe this process will allow me to handle them more quickly and efficiently and with some cost savings to my office.

Thank you for your attention in this matter.

**AGREEMENT**  
**Emergency and Transportation Revolving, ETR Fund**  
**Transfer of Funding Between Circuit Engineering Districts**

THIS Agreement for transferring funding is entered into by and between Circuit Engineering District 1 and Circuit Engineering District 7. The Oklahoma Cooperative Circuit Engineering Districts Board, created pursuant to 69 O.S. § 687.1(J) ("OCCEDB") have adopted rules governing the use of the Emergency and Transportation Revolving, ETR, fund.

WHEREAS, 69 O.S. § 687.1(J) provides for the creation of the OCCEDB with the power to conduct business, including developing policies and procedures, incurring expenses, and contracting for services to advance the development and operations of Circuit Engineering Districts ("CEDs");

WHEREAS, 69 O.S. § 687.3 created in the Oklahoma State Treasury a Emergency and Transportation Revolving (the "ETR") fund for which monies are expended for the purpose of emergency or transportation projects on the County Highway System and originate from a onetime transfer of 25 million from the Oklahoma Department of Transportation's State Highway Construction and Maintenance Fund;

WHEREAS, 69 O.S. § 687.3 provided OCCEDB the authority to adopt rules governing the application, qualification and reimbursement procedures for counties seeking ETR funding;

WHEREAS, the Circuit Engineering District 1 finds it necessary and in its best interest to request additional funding limitation to meet the needs of the following Delaware County projects, overlay 605 Rd and 75 Rd, crushed rock for 552 Rd and Bridge 56 repair; the estimate cost of said projects is \$650,000; and

WHEREAS, Circuit Engineering District 1 does not have the total funding listed above and is requesting \$318,000 ETR funding from Circuit Engineering District 7 to meet the project costs and shall reimburse Circuit Engineering District 7 first before repaying themselves from CED 1 counties' repayments.
