PROJECT SELECTION PROCESS

CED#1 Materials Request Grant Program

The CED#1 Materials Request Grant Application shall be completed and submitted to the CED for review.

Each request shall be limited to \$50,000. After pictures of the project site shall be submitted to the CED within 6 months of receiving funding.

The projects must meet ODOT Force Account standards (i.e. 23 ton load rating and 24 ft clear roadway).

The purpose of this program is to assist counties with the purchase of materials for force account projects. Requests will only be approved for project materials. Labor, equipment, rental equipment, etc., will not be eligible.

The CED#1 Board will first consider the requests in accordance with the following County Classification Designation Order as prepared by CAB, with the “poorest” county ranked #1. Second, they will consider the number of grants each county has received to date. Third consideration will be the immediate need of the project.

If a county submits more than one request, they need to prioritize each request (1+) for the CED.

The Commissioner is responsible to ensure the completed project is in compliance with ODOT Force Account standards (i.e. 23 ton load rating and 24 ft clear roadway). Bridge load ratings will be performed as part of the next scheduled bridge inspection by the county’s selected bridge inspector.

If a project is built that does not meet force account standards, or the County does not provide an ‘after’ picture within 6 months, the county must repay the Materials Request Grant unless granted an exception by the CED board. The county will not be eligible for another Materials Request Grant until they have paid back the funds.

2023 County Classification Designation Order				
	Amount	Mileage	\$/Mile	Rank
Craig	2,966,161.29	1039.13	2,854.47	1
