David
I thought I would send this response to OCCEDB board members and managers, because I know there are still a lot of questions.

PACT – Preserving and Advancing County Transportation

Two parts to the funding bill, HB 2758, creating the PACT fund:

1. 2/3 of the funding will be apportioned monthly to a county's County Highway Fund with disbursements beginning in **August**. (July Collections from 5% tax rate on natural gas gross production.) Based on the bills language, this funding will be apportion to counties that fall below the $4,000 mile/yr threshold. My understanding is that this 5% rate is charged on the first 36 months of the well's production. Then it rises to 7%, of which the PACT fund will NOT receive.
2. 1/3 of the funding is for replacement of bridges on counties' Major Collector system if approved by ODOT.

Note: Overall fund is capped at 75 million dollars per year. We are not sure what this fund will bring in each year on average. Gross production taxes can take large swings in funding from year to year. Since this is coming from Natural Gas, and its' price is relatively low, I am not sure how this fund will perform over time. State apportioned a total of $798,375,512 in FY 2022, $929,810,796 in FY 2023 and $428,944,891 in FY 2024.

So we have reached out:

- Under item 1 above, we have contacted the Tax Commission requesting more information on the formula they will be using. The bill was a little vague on how to calculate. I have my opinion, but that doesn't mean it is their opinion. Also I would guess that the Auditors' office will ask that the county place this funding in a sub-account under your County Highway Fund.
- Under item 2 above, we have contacted ODOT asking to be at the "table" on how they will determine eligibility of projects and when. I would think they would do this once a year, so that funding builds up like they do with the NOW defunct Lake Access Program.

If you have any other questions, please contact me.

Thank you

Caldwell and Haste Celebrate Historic $75 Million Investment in County Roads and Bridges

OKLAHOMA CITY – House Appropriations & Budget Chair Trey Caldwell, R-Lawton, and Vice Chair of Senate Appropriations Sen. John Haste, R-Broken Arrow, applauded the governor's signing of House Bill 2758, landmark legislation they authored that delivers up to $75 million in new resources for county roads and bridges across Oklahoma.

The measure, which now becomes law, is one of the largest single-year investments in county transportation infrastructure in state history. It provides critical support to counties as they work to improve road conditions, address structurally deficient bridges, and bolster rural and urban transportation networks that Oklahomans rely on every day.

“This puts this critical funding directly into the hands of our counties to fix the roads and bridges they know best,” Caldwell said. “This will keep Oklahomans safe as they travel. It will keep commerce moving through our rural and urban areas to the economic benefit of all Oklahomans, and it will lead to job growth and support the long-term future of Oklahoma’s infrastructure. We’re proud to stand with county officials in delivering the resources they’ve long needed.”

Haste, the Senate author of the bill added, “This legislation is about solving real problems in every corner of our state. Oklahoma currently has 1,764 structurally deficient county bridges, making this historic investment critical to public safety and infrastructure modernization. HB 2758 delivers the funding counties need to begin replacing them, and to upgrade thousands of miles of rural roads that are vital to public safety, agriculture, and economic development.”

Under the bill, counties may access up to $4,000 per mile of county roads to support targeted repairs and infrastructure modernization. This increase is significant.

The new law is the product of collaboration between the Legislature, Gov. Kevin Stitt, and the Association of County Commissioners of Oklahoma (ACCO), which championed the effort to secure new funding for all 77 counties.

“This funding empowers counties to take on the kinds of large-scale repairs and upgrades that have too often been delayed due to lack of funding,” Haste said. “This is what good policy looks like — meeting a long-standing need with smart investment and strong partnership.”

Caldwell added, "The majority of roads and bridges in Oklahoma are maintained by our counties. It's imperative we give them the tools and funding they need to properly maintain them for the safety of their residents and the businesses that rely on these lifelines. Getting this historic legislation signed into law is a huge win for all of Oklahoma."

Re: FY 26 CED 1 Program Management Services
SUPPLEMENT #1 REQUEST (GUY 1514)

Dear Commissioner Poindexter:

Following the March 27, 2025, CED 1 meeting, it was determined that the CED 1 board would like to exercise the first contract extension option from our contract. This proposal is to extend the contract through FY 26 (July 1, 2025 to June 30, 2026). The scope of services remains the same as in the original contract.

GUY respectfully requests our contract dated October 24, 2024, be supplemented as follows:

Task	FY 26 Fee
Program Management (Fixed)	$171,000
Used Beam Management (Hourly)	$500
Project Scoping (Hourly)	$20,000
Project Status Coordination (Hourly)	$15,000
CED Audit (Hourly)	$3,500
Estimated Total	**$210,000**

An updated hourly rate sheet is attached. If you have any questions, please feel free to contact me at Rebecca@GUYengr.com or (539) 424-5083.

Sincerely,

Rebecca Alvarez, PE
President
