Subject: load posting a road

FYI

By statute, the weight limit on all county roads unless otherwise changed by the Board, is 90,000lbs. the limit of 80,000 lbs is on the interstate system.

The Board my reduce the weight limit on roads, but unlike speed limits, you would have to sign all roads that fall below 90,000 lbs.

Posting Weight Limits

1. Pass a resolution. Include in resolution the location of road, where it starts and stops, and the weight limit, tonnage, the road will be posted at.
2. File resolution with the County Clerk.
3. Submit a copy of the filed resolution to: Oklahoma Department of Public Safety
Oklahoma Highway Patrol
Commercial Vehicle Enforcement
Att: Captain
Troop S
P.O. Box 11415
Oklahoma City, Ok 73136
4. After notifying the Oklahoma Department of Public Safety you may post the road.
(See Title 47 § 14-113)

REMEMBER WEIGHT LIMITS AFFECTS ALL VEHICLE TRAFFIC.

Title 47. Motor Vehicles

Chapter 14 - Size, Weight, and Load

Section 14-109.2 - Weighing as Single Draft

Cite as: O.S. §, __ __

A. Except as hereinafter provided, for the purpose of delivering agriculture commodities to and from the farm only, any vehicle or combination of vehicles shall be commercially weighed on a vehicle scale only as a single draft, that is, the total weight of the vehicle or combination of vehicles shall not be determined by adding together the results obtained by separately weighing each end of the vehicle or combination of vehicles, or by separately weighing individual elements of such vehicle or combination of vehicles. Provided, however, that when a vehicle or combination of vehicles is not weighed as a single draft the weight ticket shall be stamped "multiple draft weight; not guaranteed accurate". Provided further, that any one truck and semitrailer or truck-tractor/semitrailer combination may tow one complete trailer or semitrailer for the purpose of delivering agriculture commodities to and from the farm, such single axle and gross weight limits provided for by Section 47-14-109 of this title applying fully herein.

B. This section shall not be construed to allow or permit any vehicle or combination of vehicles to exceed:

1. The axle load limit, as prescribed in Section 47-14-109 of this title, of twenty thousand (20,000) pounds per single axle; or

2. The tandem axle weight, as prescribed in Sections 47-14-101 and 47-14-109 of this title; or

3. The overall gross vehicle weight of eighty thousand (80,000) pounds for vehicles or ninety thousand (90,000) pounds for longer combination vehicles as defined in U.S. Code 23, Section 127, operating on the Dwight D. Eisenhower System of Interstate and Defense Highways in accordance with the provisions of Section 47-14-118 of this title; or

4. The total overall gross weight of ninety thousand (90,000) pounds for all other highways in this state, except those highways prescribed in Section 47-14-113 of this title.

Title 47. Motor Vehicles

Chapter 14 - Size, Weight, and Load

Section 14-109 - Single-Axle Load Limit - Gross Weight of Vehicle and Load - Exception - Annual Special Overload Permit - Exceptions - Specialized Transportation, Utility, or Refuse Collection Vehicles

Cite as: 47 O.S. § 14-109 (OSCN 2023)

A. On any road or highway:

1. No single axle weight shall exceed twenty thousand (20,000) pounds; and

2. The total gross weight in pounds imposed thereon by a vehicle or combination of vehicles shall not exceed the value calculated in accordance with the Federal Bridge formula imposed by 23 U.S.C., Section 127.

B. Except as to gross limits, the formula of this section shall not apply to a truck-tractor and dump semitrailer when used as a combination unit. In no event shall the maximum load in pounds carried by any set of tandem axles exceed thirty-four thousand (34,000) pounds. Any vehicle operating with split tandem axles or tri-axles shall adhere to the formula.

C. Except for loads moving under special permits as provided in this title, no department or agency of this state or any county, city, or public entity thereof shall pay for any material that exceeds the legal weight limits moving in interstate or intrastate commerce in excess of the legal load limits of this state.

D. 1. An annual special overload permit may be purchased for vehicles transporting roll-off recycle metals, rock, sand, gravel, coal, flour, timber, pulpwood, and chips in their natural state, oil field fluids, oil field equipment or equipment used in oil and gas well drilling or exploration, and vehicles transporting grain, fertilizer, cottonseed, cotton, livestock, peanuts, canola, sunflowers, soybeans, feed, any other raw agricultural products, and any other unprocessed agricultural products, if the following conditions are met:

a. the vehicles are registered for the maximum allowable rate,

b. the vehicles do not exceed five percent (5%) of the gross limits set forth in subsection A of this section,

c. the vehicles do not exceed eight percent (8%) of the axle limits set forth in subsection A of this section,

d. no component of the vehicles exceeds the manufacturer's component weight rating as shown on the vehicle certification label or tag, and

e. the vehicles operating pursuant to the provisions of this paragraph will not be allowed to operate on the National System of Interstate and Defense Highways.

2. Vehicles operating pursuant to this section must register for the maximum allowable rate and additionally shall purchase a nontransferable annual special overload permit from the Department of Transportation for a fee of Three Hundred Fifty Dollars ($350.00). All monies collected shall be deposited to the credit of the Highway Construction and Maintenance Fund.

E. 1. Oversize or overweight vehicles used for specialized transportation if the maximum weight does not exceed twenty-three thousand (23,000) pounds on any single axle and:

a. is a dual lane trailer with dual lane axles and the width of the transport vehicle or trailer exceeds twelve (12) feet in width, or

b. the overall gross vehicle weight of a single trailer meets or exceeds three hundred thousand (300,000) pounds, originates or terminates at the Tulsa Port of Catoosa, and the trip is confined within a thirty-mile radius of the Port.

2. Permit fees for oversize or overweight vehicles used for specialized transportation shall be in accordance with subsection A of Section 14-116 of this title.

3. Vehicles operating pursuant to the provisions of this paragraph will not be allowed to operate on the National System of Interstate and Defense Highways.

F. Exceptions to this section will be:

1. Utility or refuse collection vehicles used by counties, cities, or towns or by private companies contracted by counties, cities, or towns if the following conditions are met:

a. calculation of weight for a utility or refuse collection vehicle shall be "Gross Vehicle Weight". The "Gross Vehicle Weight" of a utility or refuse collection vehicle may not exceed the otherwise applicable weight by more than fifteen percent (15%). The weighton individual axles must not exceed the manufacturer's component rating which includes axle, suspension, wheels, rims, brakes, and tires as shown on the vehicle certification label or tag, and

b. utility or refuse collection vehicles operated under these exceptions will not be allowed to operate on interstate highways;

2. A combination of a wrecker or tow vehicle and another vehicle or vehicle combination if:

a. the service provided by the wrecker or tow vehicle is needed to remove disabled, abandoned, or accident-damaged vehicles, and

b. the wrecker or tow vehicle is towing the other vehicle or vehicle combination directly to the nearest appropriate place of repair, terminal, or vehicle storage facility;

3. A vehicle operating pursuant to the provisions of paragraph 2 of this subsection shall not be allowed to operate on the National System of Interstate and Defense Highways unless it is a covered heavy-duty tow and recovery vehicle that:

a. is transporting a disabled vehicle from the place where the vehicle became disabled to the nearest appropriate repair facility, and

b. has a gross vehicle weight that is equal to or exceeds the gross vehicle weight of the disabled vehicle being transported; and

4. On the interstate highway system a vehicle designed to be used under emergency conditions to transport personnel and equipment and to support the suppression of fires and mitigation of other hazardous situations with a vehicle weight limit up to a maximum gross vehicle weight of eighty-six thousand (86,000) pounds with less than:

a. twenty-four thousand (24,000) pounds on a single steering axle,

b. thirty-three thousand five hundred (33,500) pounds on a single drive axle,

c. sixty-two thousand (62,000) pounds on a tandem axle, or

d. fifty-two thousand (52,000) pounds on a tandem rear drive steer axle.

G. 1. Any vehicle utilizing an auxiliary power or idle reduction technology unit in order to promote reduction of fuel use and emissions because of engine idling shall be allowed an additional four hundred (400) pounds total to the total gross weight limits set by this section.

2. To be eligible for the exception provided in this subsection, the operator of the vehicle must obtain written proof or certification of the weight of the auxiliary power or idle reduction technology unit and be able to demonstrate or certify that the idle reduction technology is fully functional.

3. Written proof or certification of the weight of the auxiliary power or idle reduction technology unit must be available to law enforcement officers if the vehicle is found in violation of applicable weight laws. The additional weight allowed cannot exceed four hundred (400) pounds or the actual proven or certified weight of the unit, whichever is less.

H. On the Interstate Highway System, a vehicle carrying fluid milk products shall be considered a load that cannot be easily dismantled or divided, or "nondivisible".

I. Utility, refuse collection vehicles or a combination of a wrecker or tow vehicle as described in paragraphs 1 and 2 of subsection F of this section operating under exceptions shall purchase an annual special overload permit from the Department of Transportation for One Hundred Dollars ($100.00). All monies collected shall be deposited to the credit of the Highway Construction and Maintenance Fund.

47 Okl.St.Ann. § 14-114

Title 47. Motor Vehicles (Refs & Annos)

Chapter 14. Size, Weight and Load (Refs & Annos)

§ 14-114. Liability for damage to highway or structure

(a) The owner and operator of any motor vehicle who shall drive the same into any overpass or underpass and shall damage such overpass or underpass shall be absolutely liable to the owner or owners of such overpass or underpass thereby damaged for the amount of such damage, regardless of the height of such vehicle and regardless of the clearance in such overpass or underpass, and failure of such overpass or underpass to be sufficient in height to clear the vehicles hereby authorized shall not be a defense to any action for such damages. The provisions of this section shall be enforceable only in the event the overpass or underpass so damaged has a sign on each side thereof clearly legible and correctly stating the clearance thereof in feet and inches.

(b) The driver, owner, and any other person, firm or corporation responsible for a vehicle being on the highways or county roads of this state shall be responsible for all damages which said highways, including the bridges, pavement and all other public property thereon, may sustain as a result of a violation of the provisions of this or any other chapter regulating the usage of the highways, or as a result of the negligent or improper operation of said vehicle, and the county or state agency having charge of said highway may recover the amount of such damages in an action for damages.

The owner, driver, and any other person, firm or corporation responsible for any vehicle operating under an overweight or oversize permit shall be responsible for any damages to highway bridges or roads caused by the operation of such vehicle, whether caused by negligence or not, and no further permits shall be issued to such owner or operator until payment has been made for such damages. The amount of such damages may be recovered in an action for damages brought by the county or state agency having charge of said highway. The issuance of any special permit shall not be considered a warranty of any bridge or highway to support the permitted load.

NOTES OF DECISIONS

Consequential damages 7
Construction and application 1
Criminal penalties 8
Damages 6
Failure to maintain bridge in proper repair 5
Negligence 3
Persons liable 2
Strict liability 4

1. Construction and application

Word "improper" in statute providing that driver and owner of vehicle is responsible for all damage which highways, including bridges and other public property thereon, may sustain as result of negligent or improper operation of vehicle has almost the same meaning as "negligent." State ex rel. Dept. of Highways v. Sharpensteen, Okla., 538 P.2d 1044 (1975). Automobiles 15; Bridges 27

2. Persons liable

In action by the state against a partnership owning truck, truck driver, and lessee of equipment from partnership to recover for damage to bridge when struck by truck, court properly directed verdict as to lessee, where lessee at no time exercised any supervision or control over the truck driver, and though truck was being used to transport the equipment to the lessee, the accident occurred prior to date

when delivery was required. State ex rel. Dept. of Highways v. Rumsey, Okla., 205 Okla. 307, 237 P.2d 448 (1951). Automobiles 15

3. Negligence

Where defendant's truck, while operating under terms of oversized vehicle permit, collided with overhead bridge, defendant's liability was not grounded on negligence, but rather on statute; thus, trial court erred in instructing jury on negligence and contributory negligence. State ex rel. Dept. of Highways v. Ray I. Jones Service Co., Okla., 475 P.2d 139 (1970). Bridges 27

4. Strict liability

Statute providing that driver and owner of vehicle is responsible for all damage which highways, including bridges and other public property thereon, may sustain as result of negligent or improper operation of vehicle does not impose strict liability but makes liability for damage depend on negligent operation of vehicle so that proof of negligence is necessary to recovery. State ex rel. Dept. of Highways v. Sharpensteen, Okla., 538 P.2d 1044 (1975). Automobiles 15; Bridges 27

5. Failure to maintain bridge in proper repair

In action by the state against owner and driver of truck for damage to bridge when struck by truck, instruction that it was duty of Department of Highways to maintain bridge for use of ordinary traffic on highway and to keep bridge repaired for such traffic and that if jury found from preponderance of evidence that Department of Highways failed to keep bridge in proper repair and that such failure or negligence of Department of Highways was proximate or contributed to proximate cause of damages complained of, then jury, should find for owner and driver of truck, was proper. State ex rel. Dept. of Highways v. Rumsey, Okla., 205 Okla. 307, 237 P.2d 448 (1951). Automobiles 15

6. Damages

In action by the state against owner and driver of truck for damage to bridge when struck by truck, measure of damages was the actual and reasonable cost of repair to the bridge in order to restore it to its condition prior to the injury. State ex rel. Dept. of Highways v. Ray I. Jones Service Co., Okl., 475 P.2d 139 (1970); State ex rel. Dept. of Highways v. Rumsey, 205 Okla. 307, 237 P.2d 448 (1951).

Despite state's evidence calculated to show that tractor-trailer truck was driven upon bridge with dump bed partially elevated so that front of bed struck overhead steel portal, causing portal to bend forward and pull steel posts inward so that they lost ability to support bridge and truck so that bridge span broke and collapsed, evidence presented by truck owner and driver and showing, inter alia, that trailer bed was not elevated and that bridge was old, rusted, in poor repair and had serious defects supported judgment for driver and owner in action by state to recover for damage to bridge. State ex rel. Dept. of Highways v. Sharpensteen, Okla., 538 P.2d 1044 (1975). Bridges 27

Defendant in action by state to recover for damage to its bridge would be allowed to submit evidence relating to actual and reasonable cost of repairing bridge by responsible contractor, directed to total cost of repairing bridge by one deemed to be qualified and responsible bidder rather than to costs of one, or perhaps several, line items. State ex rel. Dept. of Highways v. Ray I. Jones Service Co., Okla., 475 P.2d 139 (1970). Bridges 27

The driver or owner of a vehicle which exceeds the posted weight limit on a county section line road bridge may be held liable under statute for any damages caused by such vehicle to a county section line road bridge by reason of exceeding such weight limit. Op.Atty.Gen. No. 82-2 (Feb. 19, 1982).

7. Consequential damages

Damage to highway bridges or roads allowable against parties responsible therefor, pursuant to this section may include consequential damages such as temporary repairs, detour, and administrative costs incurred as result of the accident. State ex rel. Dept. of Highways v. Ray I. Jones Service Co., Okla., 475 P.2d 139 (1970).

47 Okl.St.Ann. § 14-113

Title 47. Motor Vehicles (Refs & Annos) Highway Safety Code

Chapter 14. Size, Weight and Load (Refs & Annos)

§ 14-113. When the department of highways or local authorities may restrict right to use highways

The Director of the Department of Transportation with respect to highways on the state highway system, or local authorities with respect to highways under their jurisdiction, as defined in Title 69 of the Oklahoma Statutes, may prohibit the operation of vehicles on any such highways, or impose restrictions as to the weights of vehicles to be operated upon any state or federal highway or any detour established for such highways, or for any bridge located upon such highways or detours, whenever any such highway, detour or bridge by reason of deterioration, rain, snow or other climatic conditions will be seriously damaged or destroyed unless the use of vehicles thereon is prohibited or the permissible weight reduced. Such restrictions shall be effective when signs giving notice thereof are erected upon the highway, detour, bridge, or portion thereof affected by such action, and the Department of Public Safety has been notified. The purpose of this provision with respect to local authorities is to give such authorities an opportunity to prevent or minimize an immediate threat of serious harm or destruction to any highway, detour or bridge under their jurisdiction due to rain, snow or other climatic conditions. Nothing stated herein shall be construed to grant local authorities the right to issue permits designed to regulate the use of overweight vehicles upon highways subject to their jurisdiction, and the issuance of such permits is expressly prohibited.

NOTES OF DECISIONS

1. Construction and application

County authorities must find an immediate threat of serious harm or destruction exists in order to impose weight restrictions on highways, detours and bridges due to rain, snow, or other climatic conditions, but the finding is not necessary when, by reason of deterioration, the highways, detours and bridges will be seriously damaged or destroyed unless weight restrictions are imposed. Op.Atty.Gen. No. 01-41 (Oct. 9, 2001).

2. Posted weight limits

Existing weight limit signs on highways, detours or bridges need not be removed if the signs are necessary for (a) the prevention of serious damage or destruction to a highway, detour or bridge which may be caused by deterioration or (b) the prevention or minimization of an immediate threat of serious harm or destruction to the highway, detour or bridge due to rain, snow or other climatic conditions. Op.Atty.Gen. No. 01-41 (Oct. 9, 2001).

Exceeding the posted weight limit on a bridge on a county section line road is a misdemeanor criminal offense punishable under § 14-117 of this title. Op.Atty.Gen. No. 82-2 (Feb. 19, 1982).

The driver or owner of a vehicle which exceeds the posted weight limit on a county section line road bridge may be held liable under § 14-114 of this title for any damages caused by such vehicle to a county section line road bridge by reason of exceeding such weight limit. Op.Atty.Gen. No. 82-2 (Feb. 19, 1982).

The county sheriff or his deputy is the appropriate county official to effectuate a lawful arrest of a person violating a posted weight limit on a county section line road bridge. Op.Atty.Gen. No. 82-2 (Feb. 19, 1982).

In action by the state against owner and driver of truck for damage to bridge when struck by truck, the state was not entitled to recover the cost of a temporary pontoon bridge. State ex rel. Dept. of Highways v. Rumsey, Okla., 205 Okla. 307, 237 P.2d 448 (1951). Bridges 27

8. Criminal penalties

Exceeding the posted weight limit on a bridge on a county section line road is a misdemeanor criminal offense punishable under § 14-117 of this title. Op.Atty.Gen. No. 82-2 (Feb. 19, 1982).

The county sheriff or his deputy is the appropriate county official to effectuate a lawful arrest of a person violating a posted weight limit on a county section line road bridge. Op.Atty.Gen. No. 82-2 (Feb. 19, 1982).
